

CLIENT NAME: Isaac Nev	REPORT DATE: July 23, 2025
ORGANIZATION: w	SAMPLE STORAGE: Ambient Temperature
ADDRESS: Kuelu zone D, Iyana Agbala	CONDITION OF SAMPLE: Tested As Received
EMAIL: Isnevisaac@gmail.com	LAB CONTACT: 07015568976
PHONE NO: 08147154595	ENVIRONMENTAL DATA: 23.50°C, 66.00%RH
SAMPLE RECEIVED: 23rd July 2025	CLIENT ID: JGLSP2500116
SAMPLE WEIGHT: 6.00 g	

Please Note: Sample not requested for after three weeks of completion of analysis will be assumed not needed and will be discarded.

CERTIFICATE OF ANALYSIS

Sample Code	Bulk Density (g/mL)	Protein (%)
Method		Kjeldahl (AOAC 942.05 2000)
A	45.00	43.00

Summary interpretation:
The feed sample demonstrates excellent nutritional quality with very high protein content, making it highly valuable for supporting robust animal growth and development. However, its bulk density is comparatively low, which could reduce storage efficiency and potentially impact handling characteristics, though it does not compromise the feed's nutritional integrity or safety for consumption.

JaaGee Application, Training & Research Laboratory engages in nutritional analysis, microbial, and various chemical analysis to improve the quality and healthiness of foods and feeds.
